Logistics Efficiency through Innovation

Lean CarryMore® E-frame System

The CarryMore® E-frame system is made of two types of carts: the Mother and the Daughter unit. By using the CarryMore® solution you can increase significantly your productivity by reducing the need for multiple trips from a dock or warehouse to the line with materials.The Daughter unit is released by simply pressing a foot pedal placed on the Mother unit.The patented loading system lifts the Daughter units and their castors fully from the ground ensuring your employee safety, reducing castor wear & noise and saving you money and time.

Designed for following uses and industries:

Key benefits

- ✓ Eliminate the need for forklifts and reduce the risk of accidents in manufacturing and assembly lines
- ✓ Lower maintenance costs
- ✓ Reduce overall operator costs
- ✓ Require only one operator making multiple deliveries on one route trip
- ✓ Enable to carry smaller and kitted loads in the same trains
- ✓ Faster delivery rates - takes seconds to unload

Technical specifications

CarryMore® Mother Unit 1000

Platform size	1200 x 800 mm
External dimensions	2549 x 1091 x 380 mm
Tare weight	217 kg
Steering system	Center-steer: 2 fixed center and spring loaded swivel wheels at front and back
Wheels	High payload polyurethane wheels
Working load capacity at 8 km/h	1000 kg
Working load capacity at 11 km/h	1000 kg
Working load capacity at 16 km/h	850 kg
Surface treatment	Powder coating
Train configuration	Up to 5-6 units per Mother Unit

CarryMore® Daughter Unit
