

Lean Dolly type V – for efficient automotive logistics

The Lean Dolly type V is equipped with side supports.

It is designed to carry plastic crates and trays used in the automotive industry. Available in 1/4 pallet size, it can easily be integrated into your automated system and used with or without a towing device.

For optimised external transport and warehousing the Lean Dolly type V can be used together with the Lean adaptor pallet for the warehousing and distribution of components.

Also available in ISO dimensions: 600 x 500 mm.

Designed for following uses and industries:

Key benefits

- ✓ Improve work flow
- ✓ Reduce handling costs
- ✓ Enable reduction of stock level
- ✓ Reduce need for floor space
- ✓ Improve ergonomics
- ✓ Fast and safe truck loading
- ✓ Optimised vehicle fill
